

WAVE™ RADIO TLK 100

Combining the broad coverage of a Europe-wide cellular network* with the ease of two-way radio communications, the WAVE radio gets your team connected fast.

Keep employees connected and accountable with crisp, clear audio and location tracking in a rugged, compact form factor. Maximise efficiency with single-button push-to-talk and long battery life. And improve focus without a distracting screen to get in the way.

Forget building or maintaining a costly radio infrastructure. Get your team up and running quickly by deploying Europe-wide* push-to-talk without the need for costly or time-consuming spectrum licensing or manual programming. You can even use the WAVE radio with your current compatible two-way radio systems and smartphones.

TLK 100

KEY BENEFITS

- Easy to use and manage
- Built for the job
- Europe-wide* push-to-talk

MOTOROLA SOLUTIONS

FEATURES AND BENEFITS

EASY TO USE AND MANAGE

Communicate instantly and manage talkgroups and subscriptions in real time. Maximise coverage, connections, and productivity without expanding infrastructure.

Self-service talkgroups
Stay in control by managing talkgroups remotely, in real time. And say goodbye to radio programming cables. Update an entire fleet over the air, without having to touch a single device.

Grows with your business
New subscriptions can be added at any time, so your group communications can easily scale as your business grows.

Communicate across platforms
Boost collaboration no matter what device the team is using. Whether it's front office workers talking to the construction site, or sales staff communicating with the warehouse, WAVE enables instant communication between radios and smartphones across 3G/4G and Wi-Fi networks.

Radio integration capabilities
Connect to MOTOTRBO™ Capacity Plus and Capacity Max systems you already own and expand the reach of your trunked systems to a Europe-wide network* for maximum ROI.

One button, multiple teams
Collaborate at the speed of business with push-to-talk. Contact multiple teams simultaneously, and securely communicate with just one button.

BUILT FOR THE JOB

Get all the benefits of WAVE and a rugged two-way radio. Purpose-built for business, everything about the WAVE radio is designed to improve worker communication and effectiveness. Whether it's location tracking and Wi-Fi calling, or the rugged design without an attention-diverting screen. Add accessories that fit the way you work and extend the value of previous purchases with compatible MOTOTRBO SL1600 accessories.

Powerful and slim design
Move seamlessly from the field to the office with a streamlined device that supports one-handed use. Communicate with a single co-worker or the entire team using the push-to-talk button. Hear conversations clearly in noisy environments with loud and clear audio.

Built tough
Never worry about rain, dust, extreme temperatures or even the occasional drop. The WAVE radio is designed to perform in harsh working environments.

Location tracking
Easily manage your workforce using GPS to maximise safety, check project status, find faster routes, modify tasks, and position team members where they're needed most.

Wi-Fi connectivity
Stay in touch inside industrial buildings and other environments where cellular coverage may be limited by sending and receiving push-to-talk calls over compatible Wi-Fi networks.

SL1600 accessory-compatible
Leverage your prior investment by using earpieces, headsets, batteries, charging stations and other MOTOTRBO SL1600 accessories with the WAVE radio.

Long battery life
Rest assured that you'll have power when you need it most. With a battery that is designed to last 18 hours, you can focus on the project instead of worrying about recharging.

Screenless design
Maximise productivity by minimising the distractions of email, text and other apps while empowering your team to focus on the job at hand.

EUROPE-WIDE* PUSH-TO-TALK

Get the best of both worlds by using two-way radio communication on a Europe-wide network*. By connecting to your Land Mobile Radio (LMR) systems and smartphones, the WAVE radio extends push-to-talk benefits to all your team members, whether they're on the same job site or across the country.

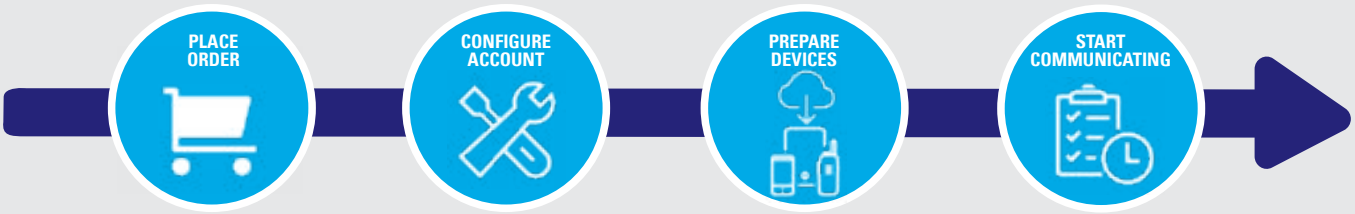

Europe-wide* push-to-talk
Communicate instantly with team members across the country or across borders at the push of a button. Bridge multiple job sites, facilities and operations without needing to set up or maintain a complicated infrastructure. Connect with team members regardless of their network, on existing LMR to smartphones and more.

Network speed
Fast track productivity with a Europe-wide* push-to-talk network that powers the quickest push-to-talk setup and call times.

Coverage you can count on
Thanks to reliable Europe-wide PTT networks your device can work whenever and wherever you need.

YOUR PATH TO EUROPE-WIDE PTT

WARRANTY AND REPAIRS

Support when you need it
The WAVE radio includes 12 months cover for hardware manufacturing defects as standard and the WAVE subscription provides software updates and access to Motorola Solutions technical support for the duration for your subscription. That means your device will always have the latest version software and you'll be able to call on expert resources for troubleshooting and maintenance help.

For additional peace of mind, we also offer optional extended cover to provide hardware repair for 3 years including normal wear and tear and you can even choose to add cover against accidental damage.
